About Our Group

With more than 20 years of experience in the metals & minerals sector, we have grown from a visionary start-up to a global powerhouse, steadfast in our commitment to delivering high-quality alloys, ores, and metals to the world's leading steel manufacturers, metalworking industries as well as chemical and new-energy industries.

We are one of the leading manufacturers of Noble Alloys and also one of the renowned trading houses of all kinds of Ferro-alloys (SiMn, FeMn, FeCr, FeSi, etc.) and ores in India.

Some of the major reasons behind our success are :

- **Excellent Sourcing Capabilities & Brilliant Quality Control**

Our extensive sourcing and supply contracts with reputable global and domestic companies in the fields of Minerals, Metals, Ores, Coke & Coal, as well as finished goods like steel & Ferro-alloys, empower us to control the entire value chain from sourcing to marketing while ensuring stringent quality control across all stages.

- **Global Portfolio of Companies**

With offshore branches and subsidiaries in Dubai and Singapore, our business operations span multiple countries and functions. This international presence ensures smooth trade and seamless operations across borders, providing the support needed to deliver value effectively.

- **Niche Markets**

Our sourcing capabilities are not restricted to any one region. We source materials from around the globe, ensuring that we meet desired quality standards with economic viability, giving us a competitive edge in serving diverse and niche markets.

Our Vision & Mission

To foster meaningful growth across high-growth sectors through trading and manufacturing of critical products across the metals & minerals ecosystem.

Our Products & Services

We work across a range of products through our integrated trading and manufacturing practices, we supply critical minerals and metals to different industries ranging from the metal industry, and steel industry to the chemical, battery, and other new-energy industries also.

We have offtake agreements with globally renowned miners and producers which enables us to maximize values for each and every mineral.

Manganese

We import over 1 million tons of Mn Ore annually for the Indian market from the reputed miners to fulfill the demands of the Indian Ferro alloys manufacturers. We then trade around 50000 - 60000 tons of finished Mn alloys.

Chromium

We are trading around 20000 - 30000 MT of Chrome alloys, concentrates and ores every year for the Indian & Global markets.

Nickel

We import around 2500 - 3000 TNi a year to cater to the Indian stainless steel and special steel market.

Molybdenum

We are the largest manufacturer of Moly products in India, manufacturing around 2500 MT a year.

Iron Ore

To cater to the Global Steel manufacturing industry, we offer consistent and stable quality iron ore.

Vanadium

We are one of the leading manufacturers of Ferro Vanadium in India, manufacturing around 1000 MT a year.

Lithium & Cobalt

To cater to the domestic & global battery industry, we trade a good quantity of Lithium & Cobalt.

Steel Products

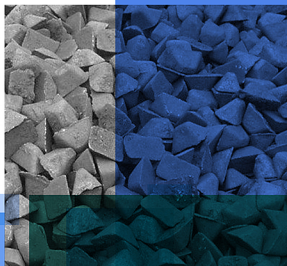

We deal in a range of steel products ranging from Structural Steel to HRC, CRC as well as Special Steel.

Coke & Coal

We offer premium quality coke & coal (Gas/Semi Coke, CPC, GPC, ECA Coal, GCA Coal and Steam Coal).

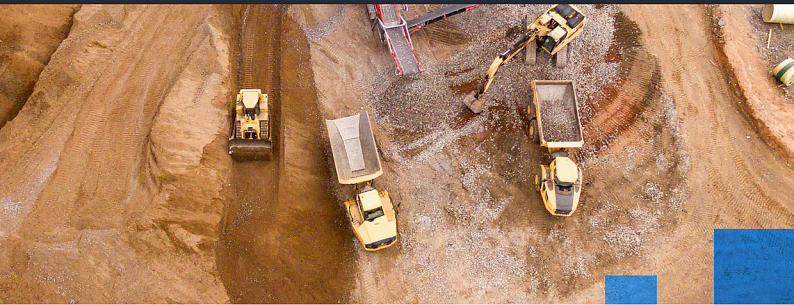

Our Valued Clients

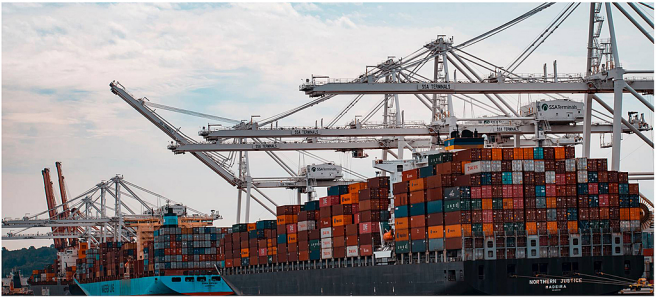

Satvik India Group takes pride in serving a diverse and esteemed clientele, consisting of industry leaders and key players across various sectors. The company's clients are characterized by their trust in Satvik's commitment to quality, timely delivery, and adherence to contractual obligations. These long-standing relationships are built on a foundation of reliability, proven service support, and a shared focus on excellence. By understanding the unique needs of each client, Satvik ensures tailored solutions that help drive mutual growth and success.

Our reputation for reliability, quality, and transparency has fostered strong, long-term partnerships with both domestic and international clients. Through its consistent focus on providing exceptional service, Satvik has earned the trust of its clientele, who value the company's ability to deliver high-quality products and meet stringent requirements.

By consistently delivering exceptional products and services, we strive to empower industries worldwide, drive economic growth, and contribute to a more sustainable future for generations to come.

Our Global Presence

The international reach, supported by strong local partnerships and industry expertise, enables Satvik India Group to efficiently serve its elite clientele while ensuring strict adherence to quality and contractual obligations. Through its subsidiaries and global operations, we continue to enhance our role as a key player in distribution of critical minerals and metals.
